## APRIL 2018

# LEAVE NO TRACE

### Master Educator Course

The five-day Master Educator Course is the top tier of Leave No Trace training. This course provides participants with a comprehensive training on Leave No Trace skills and ethics with practical application during a field based course. Participants learn minimum impact techniques through methods including discussion, use of scenarios, and hands-on activities.

The Master Educator Course is also designed to prepare participants to be the best possible teachers of Leave No Trace in both a formal and informal setting. This is done by exploring and practicing various learning styles, effective communication techniques and by having the participants prepare and present a Leave No Trace lesson for their peers. Successful graduates of the Leave No Trace Master Educator Course are qualified to offer both the Leave No Trace Trainer Courses as well as Awareness Workshops.

\* This is a two weekend training course: April 13-15, 2018 and April 27-30, 2018 (April 30<sup>th</sup> will end at 1:00pm)
